OUR COFFEE

UNION

HAND-ROASTED
COFFEE

We ethically source some of the best coffee on the planet through a network of regional roasters who in turn give back directly to the very communities with which they trade.

Camino is our house blend, single origin espresso from the Jaen region of Northern Peru.

Sourced direct from 72 individual smallholders and farmers, and roasted in small batches in East London by award-winning Union Hand-Roasted Coffee, Camino is aimed at those wanting a cup of coffee that delivers real quality while making a material difference to the lives of people who need it most. Delivering a deliciously sweet espresso with a fully transparent supply chain, Camino – Spanish for Path, Journey – brings to life our long-term

journey with our farmer partners in Jaen.

OUR TEA

HOPE & GLORY

Far from being a run of the mill cuppa, Hope & Glory are a young, British company mad about tea. They offer only premium, speciality teas; unique, hand-picked, loose leaf, organic, sourced solely from ethical growers whom they have personally met and trust.

Hope & Glory are devoted to tea, and that goes hand in hand with their commitment to the welfare and well-being of our precious planet to make the perfect cuppa.

Hope & Glory's packaging is the first of its kind for tea in the EU (and possibly the world): 100% sustainable packaging solution where every component is recyclable, reusable, and compostable.

OUR WINE

Our extensive wine list consists of wines from all over the world but, we don't sit on our laurels. Our dedicated buying team is always on the lookout for new, exciting, and innovative wines.

Ellis wines are shipped in the most environmentally friendly and efficient way as possible; from road-rail transportation of approximately 800 pallets per year out of northern Italy to selecting shipping partners with the highest environmental standards and ensuring orders are managed to best fill containers – consolidating where necessary.

Ellis Wines has also increased the volume of wine shipped in bulk which, for a flexitank shipment from Chile for example, can save up to 62% in carbon emissions vs. a conventional 20ft container of bottled wine.
